

Sync your iClicker REEF account with your Blackboard courses

- Now that you've created your free iClicker REEF account you must sync it to your Blackboard courses.
 - **Important:** Using the *Find Your Course* option in the iClicker REEF app is not the same as syncing.
 - If you don't sync correctly, you may not receive credit!
- Each class must be synced according to the following steps:

Syncing is as easy as clicking a link!

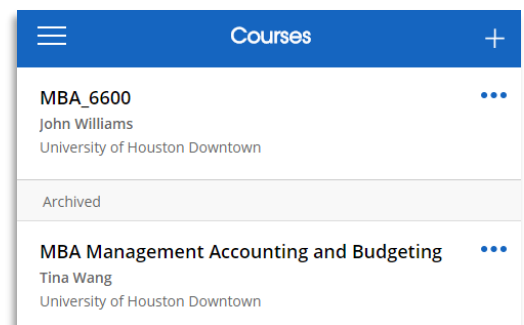

1. Login to UHD Blackboard.
2. Open the course that you'd like to sync with iClicker REEF.
3. Click the link that your instructor has setup.

- **Example link:** iClicker Polling.
Your link will probably have a different title.
- Not sure where to find the link? *Ask your instructor.*

4. You will automatically be taken to the course.
(if not, sign into your iClicker REEF account)
 - If you've already created an iClicker REEF account but can't sign in, use the [Forgot Password](#) link.
 - **Important:** Do not create a second account! Only one account can be synced.
- That's all there is to syncing your iClicker REEF account with Blackboard!
 - Still feel confused? Check iClicker student support at <http://bit.do/icsupport>.

If you have any questions or comments regarding the steps outlined in this document, please contact UHD TLS Training Services by calling (713) 221-8200, or by sending an email to tlctraining@uhd.edu.
