# Reading Question 1

The first step when reading an article is to look at titles/subheadings, the length of the text, paragraph sections, and the first sentence of each paragraph.

# Answer

What is overview/preview/skim?

# Reading Question 2

In this step, you should not stop to look up vocabulary; just continue without stopping.

# Answer 3

What is step 2 of the reading process?

# Reading Question 3

Underlining, highlighting, writing cues, and short phrases in the text to help you study in the future.

# Answer

What is annotating?

# Reading Question 4

You should do this periodically and NOT just before a test. The notes in the margins will help you do this.

# Reading Answer 4

What is studying?

# Reading Question 5

You should also include these in your cues when annotating. They will help you remember supporting details for all the main ideas.

# Reading Answer 5

What are examples?

# Listening

## Question 1

These have evidence that is difficult to question, or argue. Some of the evidence may be percentages, statistics, or any other scientific data.

# Answer

What are facts?

# Listening
