

## Needs Assessment

### Low Intermediate

#### Image “Who Am I Card” Needs Assessment *\*For Teacher Use Only\**

**Needed:** Large index card, pencils or pens

**Task:**

1. Give each student an index card that has been divided into four spaces.
  - a. Each corner is a different theme where they will write or/and draw (their preference).
    - i. The four corners are:
      1. What the student likes to do for fun
      2. Where the student is from
      3. What languages the student speaks
      4. An interesting fact about the student
2. The students will pair up and tell each other about their cards. They will take notes on their partner on the back of their cards and present that information to the class.
3. Demonstrate this on a whiteboard or with an example card you have drawn for yourself. Make it clear that drawings should not be too detailed. Rough sketches are ok.
4. Set a time limit for making cards.
